

COMP 10019

Network Design Proposal Assignment

Example Physical Network Design

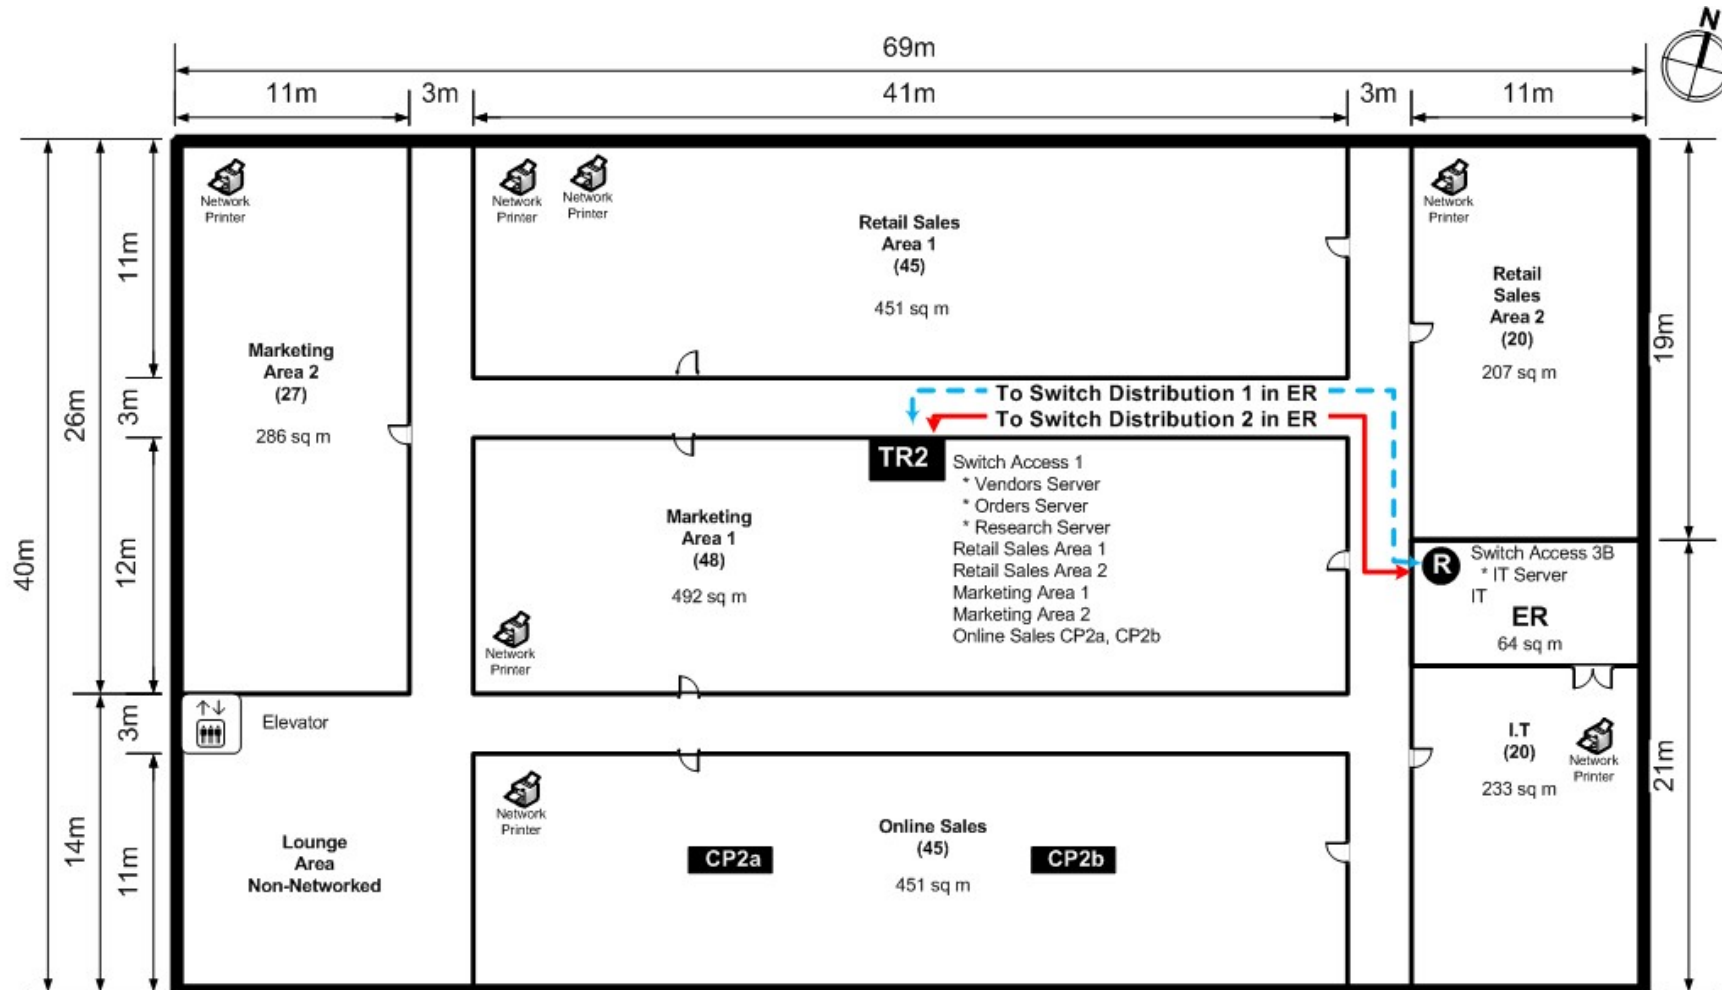

A few notes:

- 1) This example documents a three-floor design. Your design may vary – consult your Case Study document for details.
- 2) The format and configuration of the samples included here may differ slightly from the requirements outlined in the assignment, as we make changes every year to keep things fresh, but they remain an excellent reference.
- 3) If you have questions do not hesitate to reach out to your professor.

Canworld Publishing 1st Floor

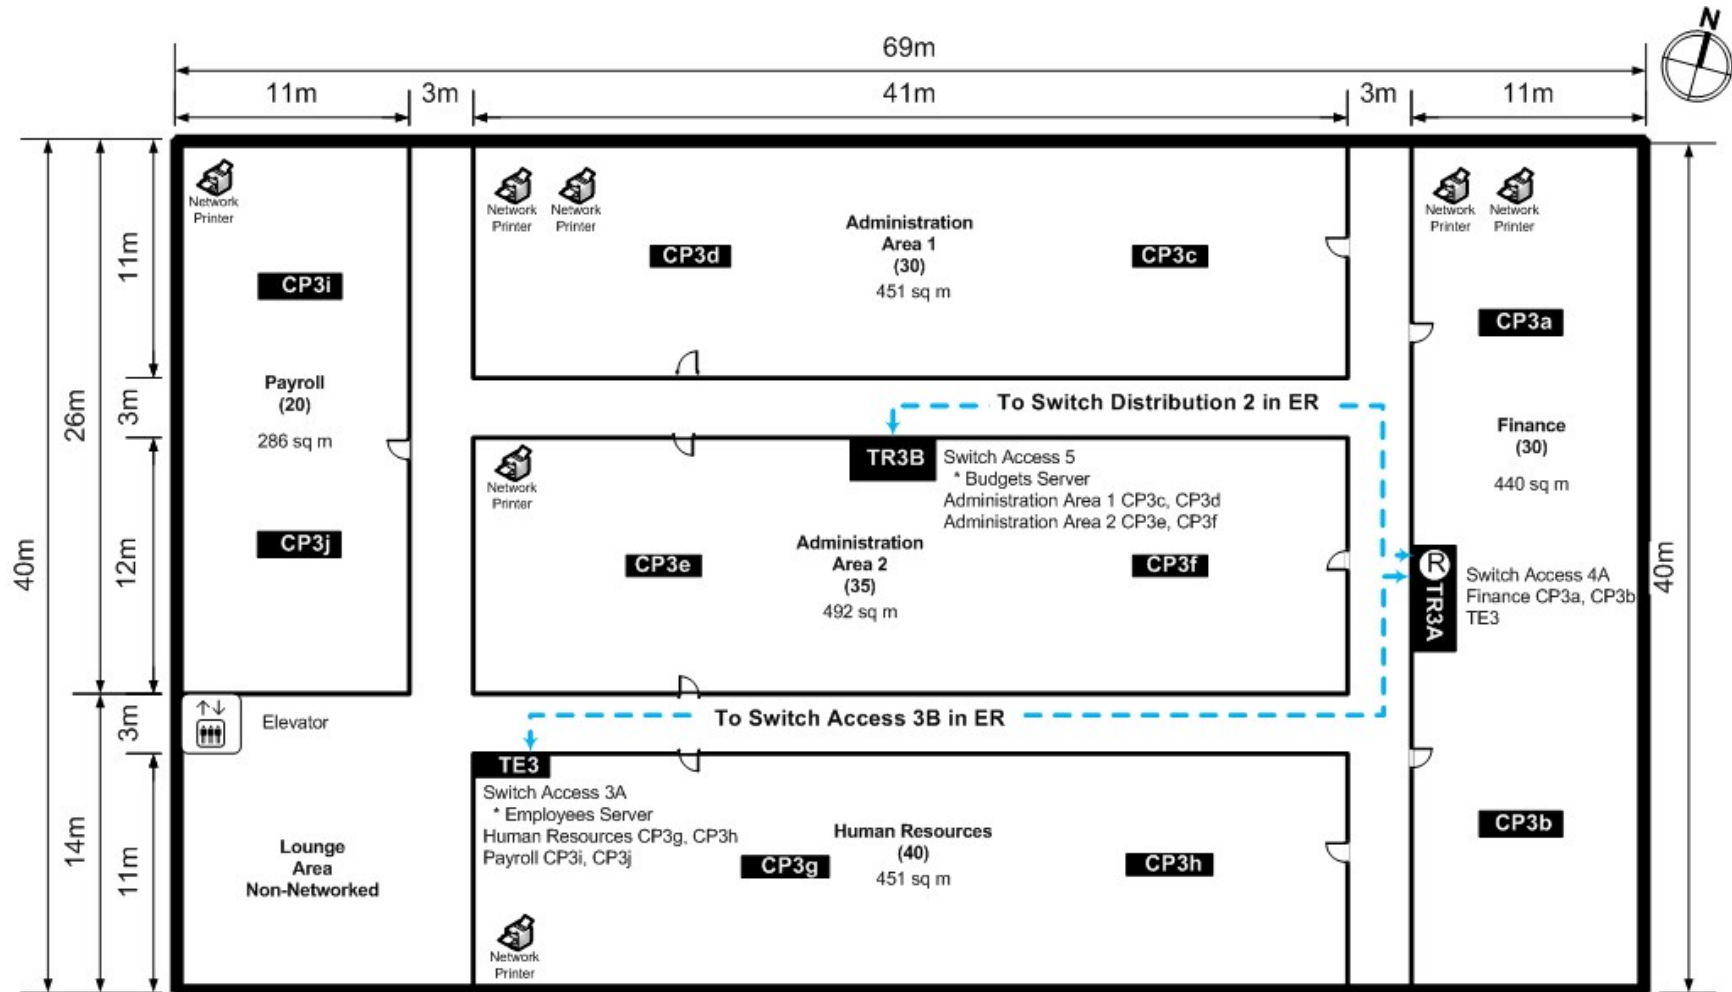

This is an original document that was designed and created solely by Gary Wright #0123456.

Canworld Publishing 2nd Floor

Scale: 1 cm = 3 m

This is an original document that was designed and created solely by Gary Wright #0123456.
